Tel: 0617762416 Email: xiaonand14@gmail.com Portfolio: <https://xiaonan-portfolio.vercel.app/>

Frontend developer with commercial experience building media workflows and internal administration tools. Based in Rotterdam with full work authorization under a Zoekjaar visa.

SKILLS

Frontend: JavaScript, TypeScript, React, Next.js, HTML, CSS, Tailwind CSS

State & Data: Zustand, SWR, REST APIs

Backend Exposure: Prisma, PostgreSQL, Supabase

Tools: Git, ESLint

Languages: English (Professional), Mandarin (Native), Japanese (JLPT N2)

WORK EXPERIENCE

Frontend Developer, Science Infinity Technology Limited Sep 2025 - Jan 2026, Hangzhou, China

Frontend development for an AI-assisted media platform spanning user-facing generation workflows, web and mobile WebView experiences, and internal review and administration tools

- Built a reusable vertical video feed supporting dynamic video sources, custom playback controls, and active playback state management to optimize rendering during carousel transitions.
- Built reusable upload components supporting multiple AI generation modes through dynamic request parameter configuration, covering file upload, asynchronous generation requests, and result rendering.
- Implemented persistent favourite state using Zustand and localStorage, keeping status synchronized across list, detail, and favourite views.
- Built a review submission workflow with screenshot upload, client-side file validation, submission feedback, and request history tracking.
- Built admin moderation features including multi-condition search with debounced inputs and hierarchical multi-select tag handling.

PROJECT

Short Video Feed, Independent Project

Jul 2026–Present

Next.js, TypeScript, Zustand, SWR

- Building a mobile-first content feed with paginated API loading, persistent saved items and browsing-position restoration.
- Improved rendering efficiency by keeping only the active and adjacent items mounted while using placeholders to maintain continuous scrolling.
- Managed shared state across feed and saved-items views, and prevented incorrect initial UI while persisted Zustand data was being restored.

EDUCATION

MA in Music Management (Merit), The University of Sheffield

Sep 2021 - Nov 2022, UK

BA in Musicology, GPA: 83/100, The University of Shandong

Sep 2017 - Jun 2021, China
